

Voltage Indicators

DIGITAL VOLTAGE INDICATORS

The Digital Voltage Indicators (DVI) are single point instruments designed to read the voltage on a conductor up to 500kV line-to-ground. The large LED readout is easy to read on the end of a long hotstick and can be used on overhead lines or in underground applications with an underground bushing probe, sold separately.

The DVI emit an audible alarm when voltage above 100VAC is detected. They are very easy to use as there are no range selector switches or settings to be made – just contact the conductor and read the display.

FEATURES

- For use on system voltages up to 800kV (reads up to 500kV line-to-ground)
- No range selector switch or settings required
- Large LED display indicates the line-to-ground voltage level
- Display is easy to read in bright or dark conditions
- Voltage readout allows the user to distinguish between nominal and induced voltages
- Audible indication when voltage is detected
- Measure elbow test points with the DVI-500T and DVI-100T
- Built-in universal spline for standard hotstick attachment
- Built-in self test to verify proper operation
- Auto shutoff with low battery function
- Powered by a field replaceable 9V lithium or alkaline battery
- Compact, rugged and lightweight polycarbonate housing
- Kits are available, contact factory for details

DVI-500T

DVI-100

There are 4 DVI models

- The NEW DVI-500 indicates voltage from 0.1kV to 500kV on overhead and underground systems – displaying the voltage on a large 3-digit LED display.
- The NEW DVI-500T with Test Point Mode has the added feature of indicating voltage on elbow test points.
- The DVI-100 indicates voltage from 0.1kV to 99kV on overhead and underground systems – displaying the voltage on a large 2-digit LED display.
- The DVI-100T with Test Point Mode has the added feature of indicating voltage on elbow test points.

HD ELECTRIC COMPANY

A Textron Company

1475 Lakeside Drive • Waukegan, Illinois 60085 U.S.A. • 847.473.4980
 fax 847.473.4981 • website: www.HDElectricCompany.com

DVI-500

0.1kV - 500kV

The DVI-500 is designed to be used on both transmission and distribution systems in overhead and underground applications. The DVI-500 indicates voltage from 0.1kV – 500kV and is auto-ranging with no range selector switch or settings required. Voltage is displayed on a large 1.45" LED display with a 3-digit readout. In addition, an audible alarm alerts the user to the presence of voltage above 100VAC. The DVI is auto shut-off and will turn off after 4 minutes of inactivity.

Two overhead probes are supplied with the DVI-500 - a large 6" overhead hook probe for transmission system use (HP-DVI-6) and a smaller 2" overhead hook probe for distribution system use (HP-DVI-2). Simply attach the correct probe for the proper overhead application. Use of a hotstick is required for all overhead and underground applications.

The DVI-500T can be used in underground applications to measure elbow test points using the underground probe (IEP-DVI-5).

DVI-500 SPECIFICATIONS

Model Numbers: DVI-500 or DVI-500T

Operating Voltage Range:
0-500kV line-to-ground, auto-ranging

Operating Frequency: 60Hz
(50Hz available)

Operating Temperature Range:
-40°F to + 120°F (-40°C to +49°C)

Dimensions:
Housing: 4.25"H x 7"L x 4.5"D
(11cm x 18cm x 11cm)
HP-DVI-2 Overhead Probe: 8"L (20cm)
HP-DVI-6 Overhead Probe: 12"L (30cm)

Weight: 1.37 lb. (0.62 kg)
With Small Overhead Probe

LED Height: 1.45" (3.7cm)

Accuracy: Typical overhead line accuracy in compact overhead three phase configuration +/- 10%, other applications up to +/-25%

Power Supply: Field replaceable
9V lithium or alkaline battery

Battery Life: About 100 readings with
9V alkaline battery

Standard Overhead Probes:
(for overhead use only)
HP-DVI-2 and HP-DVI-6

Carrying Case:
CS-DVI-5 Rugged Plastic Carrying Case

See page 4 for available underground probes

DVI-100

0.1kV-99kV

The DVI-100 is designed to be used on distribution systems in both overhead and underground applications and on transmission systems up to 161kV. The DVI-100 indicates voltage from 0.1kV – 99kV and is auto-ranging. Voltage is displayed on a large 2.25" LED display with a 2-digit readout. In addition, an audible alarm alerts the user to the presence of voltage above 100VAC. The DVI is auto shut-off and will turn off after 3-4 minutes of inactivity.

A 2" overhead hook probe (HP-DVI-2) is supplied with the DVI-100. Use of a hotstick is required for all overhead and underground applications.

The DVI-100T can be used in underground applications to measure elbow test points using the underground probe (IEP-DVI-5).

DVI-100 SPECIFICATIONS

Model Numbers: DVI-100 or DVI-100T

Operating Voltage Range: 0-99kV line-to-ground, auto-ranging

Operating Frequency: 60Hz (50Hz available)

Operating Temperature Range: -40°F to +120°F (-40°C to +49°C)

Dimensions:
Housing: 4.25"H x 7"L x 4.5"D (11cm x 18cm x 11cm)
HP-DVI-2 Overhead Probe: 8"L (20cm)

Weight: 1.37 lb. (0.62 kg) With Small Overhead Probe

LED Height: 2.25" (6cm)

Accuracy: Typical overhead line accuracy in compact overhead three phase configuration +/- 10%, other applications up to +/-25%

Power Supply: Field replaceable 9V lithium or alkaline battery

Battery Life: About 100 readings with 9V alkaline battery

Standard Overhead Probe: (for overhead use only) HP-DVI-2

Carrying Case: CS-DVI Rugged Plastic Carrying Case

See page 4 for available underground probes

ACCESSORIES

DVI-500 Kit (DVI-500T/K02)

DVI-100 with Carrying Case

PT-DVI Proof Tester
To test the DVI using an external voltage source, the PT-DVI Proof Tester should be used before and after each use to verify proper operation.

B-30 Carrying Bag

HP-DVI-6 Large Overhead Hook Probe

HP-DVI-2 Small Overhead Hook Probe

IEP-DVI-5 (Required for Underground Applications)

The IEP-DVI-5 is required for underground or pad mount applications, as well as any applications up to 21kV line-to-ground where the DVI will be used in close proximity to grounded conductors or surfaces. It should also be used to measure elbow test points with the DVI-500T and DVI-100T. Use of a hotstick is required for all overhead and underground applications.

See Accessories Ordering Information chart below for additional accessories.

DVI-500 SERIES ORDERING INFORMATION

DVI-500	Indicates Voltage up to 500 kV, Includes (1) HP-DVI-2, (1) HP-DVI-6 & CS-DVI-5 Case
DVI-500T/K01	Indicates Voltage up to 500 kV with Capacitive Test Point Mode, Kit Includes DVI-500T, (1) HP-DVI-2, (1) HP-DVI-6, (1) IEP-DVI-5, CS-DVI-5 Case
DVI-500T/K02	Kit Includes DVI-500T, (1) HP-DVI-2, (1) HP-DVI-6, (1) IEP-DVI-5, (1) PT-DVI and CS-DVI-5 Case
DVI-500/K01	Kit Includes DVI-500, (1) HP-DVI-2, (1) HP-DVI-6, (1) IEP-DVI-5, CS-DVI-5 Case
DVI-500/K02	Kit Includes DVI-500, (1) HP-DVI-2, (1) HP-DVI-6, (1) IEP-DVI-5, (1) PT-DVI and CS-DVI-5 Case

*All DVI require the use of a hotstick

• Other kits are available

DVI-100 SERIES ORDERING INFORMATION

DVI-100	Indicates Voltage up to 99 kV, Includes (1) HP-DVI-2 and CS-DVI Case
DVI-100T/K01	Indicates Voltage up to 99 kV with Capacitive Test Point Mode, Kit Includes DVI-100T, (1) HP-DVI-2, (1) IEP-DVI-5 and CS-DVI Case
DVI-100T/K02	Kit Includes DVI-100T, (1) HP-DVI-2, (1) IEP-DVI-5, (1) PT-DVI and CS-DVI Case
DVI-100/K01	Kit Includes DVI-100, (1) HP-DVI-2, (1) IEP-DVI-5 and CS-DVI Case
DVI-100/K02	Kit Includes DVI-100, (1) HP-DVI-2, (1) IEP-DVI-5, (1) PT-DVI and CS-DVI Case

*All DVI require the use of a hotstick

• Other kits are available

ACCESSORIES ORDERING INFORMATION

PT-DVI	Proof Tester for Digital Voltage Indicators
IEP-DVI-5*	Underground bushing probe, 15, 25 and 35 kV class
IEP-DVI-EXT-5*	Underground probe allows for direct contact with bare conductors
IEP-200TC-5*	Probe adapter allows either the ASP-15/25 elbow bushing probe or GCP-4 adapter tip to be installed on the DVI
ASP-15/25	15/25kV class isolated elbow bushing probe (used with IEP-200TC-5) to allow the DVI to be used to indicate voltage on elbow bushings
GCP-4	Probe adapter tip (used with IEP-200TC-5) to allow the DVI to be used to indicate voltage on distribution equipment
HP-DVI-2*	Overhead hook probe, 2" diameter opening
HP-DVI-6	Overhead hook probe for DVI-500, 6" diameter opening
CS-DVI-5	Rugged Plastic Case for DVI-500
CS-DVI*	Rugged Plastic Case for DVI-100
B-30	Carrying Bag with Fluorescent/Reflective Safety Stripes and Carrying Strap
HSA-2500	Universal Hotstick Adapter (shotgun)
S-4H	4' Fixed Length Fiberglass Hotstick
S-6H	6' Fixed Length Fiberglass Hotstick

*All DVI require the use of a hotstick

*Contact HDE for older model DVI-100 accessories.
